Dear Prof. Butler,

We are very grateful for the work of your team on PRINCIPLE trial towards the development of treatment modalities for Covid-19.

We are more than happy to be able to support the work of Prof. M. Patel and the team in this mission and particularly appreciate the idea to engage the wider BAME community in light of the disproportionate impact on these groups.

We are a group of doctors organized under the BAPIO NE umbrella (British Association of Physicians of Indian Origin- North East Division) and will be increasing awareness amongst our groups and networks through our membership.

We wish you all the best and will be privileged to support your team in any such future ventures.

Yours Sincerely,

Chair, BAPIO NE

**Dr. Rishika Sinha**
