

## PRINCIPLE video infographic script

### *\*Introduction\**

COVID-19 can lead to significant medical problems, hospitalisation, and sometimes death. So far, there are no treatments that have been proven in clinical trials to help people recover from COVID-19 while in the community.

We need to find treatments that help people recover quicker and reduce the need for them to go to hospital.

### *\*What the study involves\**

We are looking for people aged 18 years or over with symptoms including a cough OR temperature OR loss/change of smell/taste, starting within the past 14 days. OR you may have had a recent confirmed test for COVID-19 with any other symptoms.

Registering for the study can be completed online or over the phone and no face to face visits are required. You will be randomly assigned to receive usual care or medication. We will send everyone a participant pack directly to their home. If you have any questions at all you can contact the trial free phone number or your GP.

### *\*Summary\**

If you are unwell now with COVID-19 or **become unwell in the future**, please visit our website [www.principletrial.org](http://www.principletrial.org) for more information or to register for the trial. You can also call the team on 0800 138 0880

Please help us fight COVID-19 and consider registering for the PRINCIPLE Trial.
