Dear [Name of GP],

Re: [Patient's Name], NHS no: []

**Platform Randomised Trial of Treatments in the Community for Epidemic and
Pandemic Illnesses - PRINCIPLE**

The above patient's partner has participated in the PRINCIPLE trial, a platform randomised trial which aims to find effective treatments for COVID-19 to help people recover quicker and reduce the need for hospital admission.

The study participant was advised to use highly effective birth control while he was enrolled on the trial, and encouraged to report any pregnancies to the trial team immediately.

We have been informed that the above patient has become pregnant during their partner's participation in the PRINCIPLE Trial and the trial team has gained consent to collect information on the progress and outcome of the pregnancy. Please find enclosed the PRINCIPLE Participant Information Sheet (+ Appendix) and Consent Form.

If you have any queries or require further information about this research, please do not hesitate to contact (xxx) at principle@phc.ox.ac.uk.

Yours sincerely,

The PRINCIPLE Trial Management Group
