Participants!

Usual Care Packs for Participants.

The PRINCIPLE Trial team do not routinely send usual care packs on behalf of Green Lit Sites.

If you have a swab supply at your greenlit site, (please note the trial team cannot send swabs to any practice for this purpose) please arrange for usual care participants at your site to receive a swab.

If you do not have swabs at your site please let us know when one of your patients is randomised to usual care and we will send a pack out.

*Please continue to support recruitment
in any way you can!*

Updates

We have randomised 296 participants since the last newsletter 2 weeks ago!

Check out our website for updates on recruitment and the trial.

We also love hearing about all the work you are doing to support the trial on Facebook and Twitter. Thank you!!

New Treatment Arm

The inhaled corticosteroid budesonide is now the fourth medication to be investigated as part of the PRINCIPLE Trial of treatments for Covid-19 at home.

“Budesonide is relatively inexpensive, safe and easy-to-administer drug for respiratory conditions that may have a role to play in treating Covid-19”

Professor Chris Butler

GP locations of participants recruited in the last 10 weeks

We now have over 1030 sites working with the PRINCIPLE Trial across the nation. A small increase in recruitment and outreach at each site makes a huge impact.

TOP RECRUITING CRNs (numbers randomised)

1. North West Coast
2. North East and Cumbria
3. Yorkshire and Humber
4. Thames Valley and South Midlands
5. West of England
6. West Midlands
7. South West Peninsula
8. East Midlands
9. Eastern
10. Greater Manchester
