BAME Outreach

We have seen throughout COVID that those in the BAME community have been disproportionately affected. This is also a group that has been historically underrepresented in Clinical research. To ensure that we are able to help those who need it most, we are proud to be working with Professor Mahendra Patel, as our National BAME community lead.

We have added over 120 Affiliate Sites to the trial in the last week. New Affiliate sites can find sign posting resources [here!](#)
