Platform Randomised Trial of Treatments in the  
Community for Epidemic and Pandemic Illnesses

### Meet the Team

**Melanie Carr**

Assistant Trial Manager

### Why did you get into research?

It was pure chance! I was looking for an admin role and found one in a research group, 7 years later I'm still in research and loving it.

### What's your favourite thing about working at the CTU?

The atmosphere. Everyone is so friendly and dedicated to ensuring the study runs smoothly. I love knowing that the work we do will have a positive impact on people's lives and wellbeing.

### What have you learnt about working on PRINCIPLE?

How to pronounce some interesting pharmaceutical words! It's a study that's constantly changing so I've also had to learn to adapt to each update.
