DATE

To whom it may concern

I can confirm that **[insert patient name]** has consented to take part in the PRINCIPLE trial, a research study to find effective treatments for COVID-19.

As part of this study, **[insert patient name]** has been provided with the study medication and instructions on dosage and how to take the medication. All study medications are already widely used in the NHS for other conditions and have been approved as safe for use in this study. A clinician on the study team at the University of Oxford and/or the patients GP has reviewed **[insert patient name]**'s GP notes and confirmed that this medication is safe for them to take.

PRINCIPLE is a UK national priority study that is funded by the UK Department of Health and Social Care and run by the University of Oxford. For more information please visit [www.principletrial.org](http://www.principletrial.org) or call 0800 138 0880.

Yours Sincerely

Professor Christopher Butler,  
*Chief Investigator, PRINCIPLE Trial*  
*Director of the Primary Care Clinical Trials Unit*  
*General Practitioner*
